

AQUASEAL® CERAMICSTAR

Fast and Robust

*Performance of the
Next Stage Technology*

*Available in the gloss levels:
ultramatt, mat/satin, semigloss*

- + **Features an excellent resistance**, supported by ceramic components contained in the formula, which provide for a new resilience on the floor.
- + **Extremely quick finished floor usability.** The floors are ready for use already 12 hours after the last coat was applied!
- + **The optimum solution for renovating** of old floors. Great at blocking salt contaminations in coastal buildings.
- + **Formulated for a user-friendly application**, fast and efficient.
- + **Certified skid resistance** rating R9 out of the bottle (acc. to BGR 181 and DIN 51130). With our R10 additive, the AQUASEAL CERAMICSTAR exceeds the Australian standard (AS4586).
